شرکت پیشگامان صنعت مبلمان پرشیا  
Persia Furniture Industry Pioneers Company

اتحادیه تولیدکنندگان و صادرکنندگان مبلمان ایران  
Iran Furniture Manufacturers & Exporters Union

## The 26th Int'l Exhibition of Home Furniture (HOFEX 2017) Overview

With more than 21 years intensive activities in furniture industry and in full collaboration with Iran Furniture Manufacturers and Exporters Union, we have been organized this prestigious event since 1993. Considering ever-increasing growth of furniture industry in Iran which has been followed with international sanctions and currency collapse, turned this industry to a leading one since we could offer quality products with most competitive prices in the Middle-East so that Iran could be considered as one of the leading exporters of furniture in the region. While there are roughly 55,000 firms operating in the field of furnishings involved in production, trade and consulting, the country's booming furniture sector is driving

demand for the latest technologies, raw material and quality products.

## Is this tour for me?
